CREATIVE AND INNOVATIVE

Goal Line Careers Workbooks and resources are uniquely designed for use in NZ Schools by NZ Careers Educators. Just like the design below which was created by our own Barista tutor.

The Career Planning Centre Ltd is the parent company of Goal Line Careers. CPC offers individualised career counselling to people of all ages, but in particular senior school students. CPC also operates Career NetWork, the largest PTE in Rotorua

The Boyz (photo on front)

These are original works in clay commissioned as a focal point for our students at Career NetWork. They represent youth seeking their future direction in life, and help to explain to our young learners how we can help them plan their future careers.

CareerWorks

This impressive software suite includes Tracker. This is no comparable Career Development software package available for school Careers Advisers. The ultimate at a reasonable price.

Workbooks

1. My Career Plan for Juniors

Give your students the very best career workbook available – your students deserve it. This is a critical stage in their career development, and this workbook is up to the challenge. This highly interactive 20-page workbook is the most widely used career resource of its kind in New Zealand schools with over 160,000 students having used it already.

Revised annually, this is the original career workbook containing a career and learning plan. It can easily be taught by subject Teachers using the notes supplied.

2. My Career Plan 2 for Seniors

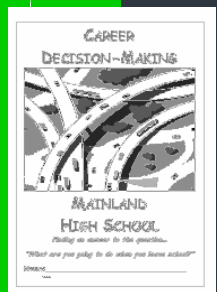

Now you can offer your senior students a Career workbook and award credits towards NCEA. This workbook incorporates 3 unit standards worth 7 credits and follows a logical sequence covering all PC's.

- 10781: Produce a plan for own future directions (L2 Cr3)
- 12383: Explore career options relevant to an area of learning and explore their implications for oneself (L2 Cr2)
- 7121: Demonstrate information search, access, and selection skills (L2 Cr2)

Moderation Note -Ver2 Workbook requires use of current Schedule downloadable from website – please ensure you have the latest workbook and schedule.

3. Career Decision Making

This workbook addresses the big question that students are often asked – and dread. “*What are you going to do when you leave school?*” It helps students identify their options and then helps work through those options to the point of deciding what to do.

After completing this workbook they will be so much more independent in their career thinking.

No marking required – designed for students not interested in US Credits.

Only offered as a MASTER (pre-printed not available)

Resources

4. Students in the Workplace

This folder contains everything you need for successful Work Experience placements, except the actual employer! It includes an **Assignment** that combines 2 unit standards together in a sensible teaching package worth 5 Credits.

- **543:** Complete a Work Experience Placement (L2 Cr3)
- **10780:** Start Work in new Workplace (L1 Cr2)

It contains letters, memos, permission forms, OSH advice, guidelines for employers...and comes on a disk so that you can use these as computer masters.

Complete Package \$200 +GST
